

The diagram illustrates the components of life cycle costs. It features three horizontal bars of different heights. The top bar, labeled 'Maintenance Cost', is the tallest and is positioned above the middle bar. The middle bar, labeled 'Exploration Cost', is the tallest of the three and is positioned between the top and bottom bars. The bottom bar, labeled 'Initial Cost', is the shortest and is positioned below the middle bar. To the left of the bottom bar is a small box labeled 'Initial Cost', and to the right is a small box labeled 'Shut-down Cost'. A large arrow at the bottom points to the right and is labeled 'Life Cycle'.
